

Better training today. Better research tomorrow.

ÄKTA™ start protein purification system

Make teaching protein purification a lot easier with the automated ÄKTA start system. You get hands-on, easy-to-use operation, using minimal bench space. Let your students learn, perform, and analyse experiments through an affordable educational solution.

ÄKTA start benefits include:

- Educational design thanks to a front-facing, visible flow path, helping students understand the purification process from loading sample to collecting fractions
- Simple operation via an intuitive touchscreen and choice of method templates for common chromatography techniques
- Bench-top functionality with the added possibility to combine with Frac30 fraction collector, easy-to-use UNICORN™ start system control software, and prepacked column packages

Let future researchers discover the world of automated protein purification. Bring ÄKTA start to your classroom and start changing tomorrow today.
